---

My motto in life is to have qualitative achievements. Seeking an organization offering good opportunities of career growth where I can put my Laboratory skills into practice & develop myself along with the development of the organization. Graduate from Anderson College Kitchener in 2024, also completed Bachelor of Microbiology in 2016. Compassionate Laboratory Technician/assistance trained to handle Issues and remain level-headed. Reliable and hardworking with great interpersonal and team collaboration skills.

## EXPERIENCE

MAR '24 - MAY '24

### MEDICAL LABORATORY TECHNICIAN TRAINEE | LIFELAB, KITCHENER

- Conducted phlebotomy procedures prioritizing patient comfort and safety
- Executed diverse laboratory tests on blood, urine, and other specimens
- Administered ECG procedures, ensuring accurate result interpretation
- Handled blood and urine samples, aliquoting for various tests with meticulous documentation
- Ensured proper labeling and documentation of prepared specimens
- Operated laboratory equipment with precision for accurate tests
- Engaged in quality assurance to uphold test accuracy and reliability
- Collaborated with healthcare professionals for comprehensive patient care
- Monitored and replenished supplies for continuous workflow
- Managed inventory for operational efficiency
- Adhered to safety protocols for a secure working environment.
- Observed strict adherence to all HIPAA regulations related to patient confidentiality when handling medical records or test results.
- Reviewed procedure manuals regularly for updates or changes that may affect daily operations in the lab.
- Prepared specimens for testing, including centrifuging, diluting, culturing, staining and smearing.
- Conducted routine maintenance on lab equipment such as cleaning glassware, replacing worn parts or reagents.
- Verified patient identification prior to specimen collection and processing.
- Demonstrated proper infection control procedures by safely disposing of sharps and hazardous wastes.

OCT '21 - JAN '23

### Omni manager | walmart, waterloo, ON

- Mentored and trained new employees on company policies and procedures.
- Provided support for customers by addressing complaints quickly and efficiently, displaying exceptional customer service skills.
- Managed daily operations including scheduling and budgeting, exhibiting excellent multitasking capabilities.

AUG '17 - NOV '18

### Medical Laboratory Assistant | CIMS HOSPITAL, AHMEDABAD

- Processed specimens following established protocols and adhered to strict safety standards
- Proficient in processing various patient samples, including blood, urine, and tissue specimens
- Knowledgeable about proper specimen handling and storage procedures to maintain sample integrity
- Skilled in operating and maintaining laboratory equipment, such as centrifuges, microscopes, and analyzers
- Adhered to strict infection control protocols to prevent cross-contamination and ensure safety
- Set up incubators at appropriate temperatures for bacterial culturing
- Addressed customer complaints regarding laboratory services promptly
- Provided feedback on product performance based on test results from experiments
- Analyzed specimens using various microbiological techniques, including gram staining, plating, and biochemical testing.
- Prepared reports summarizing findings from completed experiments or tests for review by physicians or other healthcare personnel.
- Participated in professional development activities such as seminars or workshops related to advances in medical technology.
- Provided training and guidance to new staff members on proper techniques for specimen collection and processing.
- Evaluated accuracy of test results against predetermined standards before releasing them to clinicians or patients.
- Conducted quality control testing on reagents and equipment used in the lab.
- Monitored expiration dates on reagents used in the lab to ensure they are not expired before use.
- Utilized excellent communication skills while interacting with patients and other healthcare professionals.

## EDUCATION

MAY '24

### High School Diploma

anderson college, kitchener

Awards & Honors

MLPAO certified

JUL '16

### Bachelor of Science (B.S.) in Microbiology

Kadi serve vidhyalaya, india

## SKILLS

Phlebotomy

Sample collection

Blood and urine analysis

Lab testing

Aseptic techniques

Laboratory information system

Critical thinking

Problem solving abilities

Lab equipment maintainance

Adaptability and flaxibility

Decision making

Professionalism

Quality control procedure

Urinalysis testing

Team collaboration

Laboratory saftey protocols

## CERTIFICATIONS

Medical laboratory technician/assistance

MLPAO
